

The 49th annual meeting of Japan Society of Protistology

Oral presentations

Morphological comparison of ectoplasmic nets of labyrinthulomycetes under various culture conditions with different cellulase activity

○Izumi Iwata^{1,2}, Daisuke Honda^{2,3}

¹Grad. Sch. Natural Sci., Konan Univ., ²Inst. Integr. Neurobiol., Konan Univ., ³Fac. Sci. Engin., Konan Univ.

Distribution, ecology and phylogenetic relationship of large unicellular zooplankton in the Kuroshio Region

○Yasuhide Nakamura¹, Rei Somiya², Akihiro Tuji¹, Rie Hori S.³, Noritoshi Suzuki⁴

¹Dept. Botany, Natl. Museum of Nature and Science, ²Grad. Sch. Fish. Sci. Environ. Studies, Nagasaki Univ.,

³Grad. Sch. Sci. Engin., Ehime Univ., ⁴Grad. Sch. Sci., Tohoku Univ.

Evolution of algal-ciliate endosymbiosis in an experimental culture and the essential resources supplied from outside the symbiotic system required for its stable persistence

Kenta Nishikubo, ○Toshiyuki Nakajima

Dept. Biol., Ehime Univ.

A search for habitat distribution of *Stentor pyriformis* and development of its culture method

○Yuuji Tsukii

Lab. Biol., SRC, Hosei Univ.

The regeneration of *Spirostomum ambiguum*

○Maho Shimada, Masashi M. Hayakawa

Osaka Pref. Toyonaka High Sch.

Molecular genotyping and pathogeneity of *Toxoplasma gondii* isolated in Japan

Junpei Fukumoto^{1,2}, Akinori Yamano^{1,2}, Takaya Sakura¹, Ryuma Matsubara^{1,2}, ○Kisaburo Nagamune^{1,3}

¹Dept. Parasitol., Natl. Inst. Infect. Dis., ²Grad. Sch. Life Environ. Sci., Univ. Tsukuba, ³Fac. Life Environ.

Sci., Univ. Tsukuba

Localization and function of peroxiredoxins in *Entamoeba histolytica*

Yoshida Kazuhiro¹, Takashi Makiuchi¹, Makoto Kazama¹, Naoko Fukunishi², ○Hiroshi Tachibana¹

¹Dept. Infect. Dis., Tokai Univ. Sch. Med., ²Support Center for Med. Res. Educ., Tokai Univ.

Organelle transplant revealed a quality control system for mitosome in *Entamoeba histolytica*

○Makoto Kazama¹, Sanae Ogiwara², Takashi Makiuchi¹, Kazuhiro Yoshida¹, Kumiko Tsukui³, Tomoyoshi Nozaki^{3,4}, Hiroshi Tachibana¹

¹Dept. Infect. Dis., Tokai Univ. Sch. Med., ²Support Center for Med. Res. Educ., Tokai Univ., ³Dept.

Parasitol., Natl. Inst. Infect. Dis., ⁴Grad. Sch. Life Environ. Sci., Univ. Tsukuba.

Repeat unit variation in *Plasmodium vivax* merozoite surface protein-9 and immune responses from vivax malaria patients in Thailand

○Sunisa Songsaigath^{1,2}, Takashi Makiushi¹, Chaturong Putaporntip², Somchai Jongwutiwes², Hiroshi Tachibana¹

¹Dept. Infect. Dis., Tokai Univ. Sch. Med., ²Dept. Parasitol., Fac. Med., Chulalongkorn Univ., Thailand

Interspecies conjugation between different megakaryotypes in ciliate *Blepharisma*

○Ayu Sugino¹, Mayumi Sugiura², Terue Harumoto²

¹Dept. Biol. Sci., Grad. Sch. Culture and Humanities, Nara Women's Univ., ²Res. Group Biol. Sci., Div. Natural Sci., Nara Women's Univ.

Identification of a novel IDO involved in the biosynthesis of gamone 2 in the ciliate *Blepharisma*

○Mayumi Sugiura¹, Hajime J. Yuasa², Terue Harumoto¹

¹Res. Group Biol. Sci., Div. Natural Sci., Nara Women's Univ., ²Lab. Biochem., Dept. Appl. Sci., Fac. Sci., Kochi Univ.

Behavior of chromosomes at mitosis and meiosis in *Tetrahymena thermophila*

○Toshiro Sugai, Osamu Numata
Life Environ. Sci., Univ. Tsukuba

Immaturin-calcium ion hypothesis for life cycle phase transition in *Paramecium*

○Nobuyuki Haga
Dept. Biol. Sci., Senshu Univ. Ishinomaki

Grl1 (Granule lattice protein 1) is a candidate protein for K antigens in *Tetrahymena thermophila*

○Takahide Ota
Div. Tumor Biol., Dept. Life Sci., Med. Res. Inst., Kanazawa Med. Univ.

Investigation of factors related to contraction of the proboscis of *Lacrymaria olor*

○Ryuji Yanase, Tohru Yoshihisa, Seiji Sonobe
Grad. Sch. Life Sci., Univ. Hyogo

Study on oriented movement of *Tetrahymena* in response to a current of fluid

○Yukinori Nishigami, Takuya Ohmura, Masatoshi Ichikawa
Grad. Sch. Sci., Kyoto Univ.

Investigation on the function of cortical granules in *Blepharisma hyalinum*

○Nozomi Tamura¹, Mayumi Sugiura², Terue Harumoto²

¹Dept. Biol. Sci., Grad. Sch. Culture and Humanities, Nara Women's Univ., ²Res. Group Biol. Sci., Div. Natural Sci., Nara Women's Univ.

Involvement of kinesin-14 in meiosis of ciliate *Tetrahymena*

Yasuhiro Kushida^{1,2}, Masak Takaine^{1,3}, Kentaro Nakano¹, Toshiro Sugai¹, Krishna Kumar Vasudevan⁴, Mayukh Guha⁴, Yu-yang Jiang⁴, Jacek Gaertig⁴, ○Osamu Numata¹
¹Grad. Sch. Life Environ. Sci., Univ. Tsukuba, ²Lab. Mol. Traffic, Inst. Mol. Cell. Regulation, Gunma Univ., ³Gunma Univ. Initiative Adv. Res., Gunma Univ., ⁴Dep. Cell Biol., Univ. Georgia, USA

Characterization of a putative EF-hand motif protein FAP85 of *Chlamydomonas* flagella

○Junya Kirima¹, Hiroaki Kojima², Kazuhiro Oiwa^{1,2}
¹Grad. Sch. Life Sci., Univ. Hyogo, ²Adv. ICT Res. Inst., Natl. Inst. Inform. Commun. Tech.

Poster presentations

Growth of *Paramecium bursaria* fed on free-living *Chlorella*

○Sosuke Iwai, Kota Fukushi
Fac. Educ., Hirosaki Univ.

Rapid identification of bacteria from *Paramecium bursaria* culture medium by PCR analysis of 16S rRNA genes

○Eiko Himi
Inst. Plant Sci. Resources, Okayama Univ.

Study of post-meiotic DNA double-strand breaks occurring in the haploid germline nuclei of *Tetrahymena thermophila*

○Yasuhiro Fukuda¹, Takahiko Akematsu², Ronald E. Pearlman³, Chika Tada¹, Josef Loidl², Yutaka Nakai¹
¹Div. Biol. Resour. Sci., Grad. Sch. Agric. Sci., Tohoku Univ., ²Dept. Chromosome Biol., Univ. Vienna, Austria, ³Dept. Biol., York Univ., Canada

If an important parameter of thermodynamics reaction considers to be temperature, then that of enzymatic reaction is substrate concentration

○Hiroshi Asai
Inst. Sci. Engin., Waseda Univ.

Mass Culturing of *Paramecium bursaria* ~ For Bioethanol Production ~

○Wakako Endo, Miho Morishita
Konko Gakuen Junior & Senior High Sch.

Regulation of maltose synthesis and characteristics of the maltose transport system in the endosymbiont *Chlorella variabilis* of *Paramecium bursaria*

○Aika Shibata¹, Fumio Takahashi², Masahiro Kasahara², Nobutaka Imamura³
¹Grad. Sch. Life Sci., Ritsumeikan Univ., ²Dept. Biotechnol., Coll. Life Sci., Ritsumeikan Univ., ³Dept. Pharm., Coll. Pharm. Sci., Ritsumeikan Univ.

Cospeciation between parabasalian symbiont *Teranympha* and host termite.

○Daichi Shimizu¹, Osamu Kitade², Masahiro Yuki³, Moriya Ohkuma^{3,4}, Satoko Noda¹
¹Univ. Yamanashi, ²Ibaraki Univ., ³BMEP/ RIKEN, ⁴JCM/RIKEN

Theoretical study about evolution of stalk/spore differentiation and recognition of other strain in *Dictyostelium discoideum*

○Kouki Uchinomiya
RIKEN, iTHES

Changes in ultrastructure and chemical composition of the cell wall of *Chlorella* in relation to endosymbiosis in *Paramecium bursaria*

○Rina Higuchi¹, Chihong Song^{1,2}, Toshinobu Suzuki¹
¹Dept. Biol., Grad. Sch., Kobe Univ., Japan, ²Natl. Inst. Physiol. Sci.

Morphogenetic and molecular analyses of cyst wall components in the ciliated protozoan *Colpoda cucullus*

○Ryoji Funadani¹, Yoichiro Sogame¹, Katsuhiko Kojima², Toshikazu Takeshita², Keisuke Yamamoto¹, Tomoya Tsujizono¹, Futoshi Suizu³, Seiji Miyata⁴, Ken-Ichi Yagyu⁵, Tomohiko Suzuki⁶, Mikihiko Arikawa¹, Tatsuomi Matsuoka¹
¹Dept. Biol. Sci., Fac. Sci., Kochi Univ., ²Dept. Microbiol. Immunol., Shinshu Univ. Sch. Med., ³Div. Cancer Biol., Inst. Genetic Med., Hokkaido Univ., ⁴Dept. Appl. Biol., Kyoto Inst. Technol., ⁵The Facility for Research Instruments, Kochi Univ., ⁶Lab. Biochem., Fac. Sci., Kochi Univ.

Identification of possible molecules involved in β-1,3-glucan-mediated food recognition in the centrohelid heliozoan *Raphidiophrys contractilis*

○Mayumi Kobayashi, Mousumi Bhadra, Toshinobu Suzuki
Dept. Biol., Grad. Sch. Sci., Kobe Univ.

Association of distribution of protists with environmental factors in Lake Shinji and Lake Nakaumi, Western Japan.

○Yukari Gobara¹, Yuuki Kodama², Hideki Ishida²
¹Biol. Sci. Biotechnol., Grad. Sch. Life Environ. Sci., Shimane Univ., ²Dept. Biol. Sci., Fac. Life Environ. Sci., Shimane Univ.

Evaluation of sensitivity for antimitotic agents in *Actinophrys sol*

○Shogo Matsui¹, Risa Ikeda², Motonori Ando^{1,2}
¹Lab. Cell Physiol., Grad. Sch. Edu., Okayama Univ., ²Lab. Animal Physiol. Pharmacol., Grad. Sch. Env. Life Sci., Okayama Univ.

JSP Symposium

"Potential interaction between the advancement of protistology and science education"

Principle of life disclosed by researches of cell motility

○Seiji Sonobe¹, Yukinori Nishigami², Atsushi Taniguchi³, Nozomi Yamaoka¹, Go Kobashigawa¹
¹Grad. Life Sci., Univ. Hyogo, ²Grad. Sci. Kyoto Univ., ³Lab. Spatiotemporal Regulations, NIBB

Drawing a perspective on teaching/learning materials of protists: from the viewpoint of history of science education

○Hiroki Fujii

Dept. Sci. Edu., Grad. Sch. Edu., Okayama Univ.

Teaching materials of protists on secondary school science: focus on protozoa

○Tadashi Maruoka

Biology educator, Kagawa Pref. High Sch.

Protists as a material for life science education in a combined junior and senior high school: use and future prospects

○Fukuto Tanaka

Seishin Girls' High Sch.

Close relationship between research subjects in Japan Society of Protistology and science education contents: from the viewpoint of the contents map of the life science domain in the course of study

○Risa Ikeda¹, Motonori Ando^{1,2}

¹Lab. Animal Physiol. Pharmacol., Grad. Sch. Env. Life Sci., Okayama Univ., ²Lab. Cell Physiol., Grad. Sch. Edu., Okayama Univ.

Let's bring up amateur protistologists

○Yuuji Tsukii

Lab. Biol., SRC, Hosei Univ.

Special lecture by a winner for the Award of the Japan Society of Protistology in the Field of Protistological Research

Immunity to malaria: protection and exacerbation

○Fumie Kobayashi

Dept. Infect. Dis., Kyorin Univ. Sch. Med.

Special lecture by a winner for the Award of the Japan Society of Protistology in the Fields of Education and Social Contribution

Enjoy the fascinating world of microorganisms at the Lake Biwa Museum.

○Yasushi Kusuoka

Lake Biwa Museum

Special lecture by a winner for the Encouragement Award for Young Protistologists

Contribution to increasing awareness of protists in general society and to actively utilizing protists in the field of school education.

○Yasutaka Suetomo

Iwakuni City Micro-life Museum
